

organisme professionnel de prévention
du bâtiment et des travaux publics

60 YEARS OF EXPERIENCE

1947
OPPBTTP
creation

1947 : Risk prevention and regulatory requirement control.

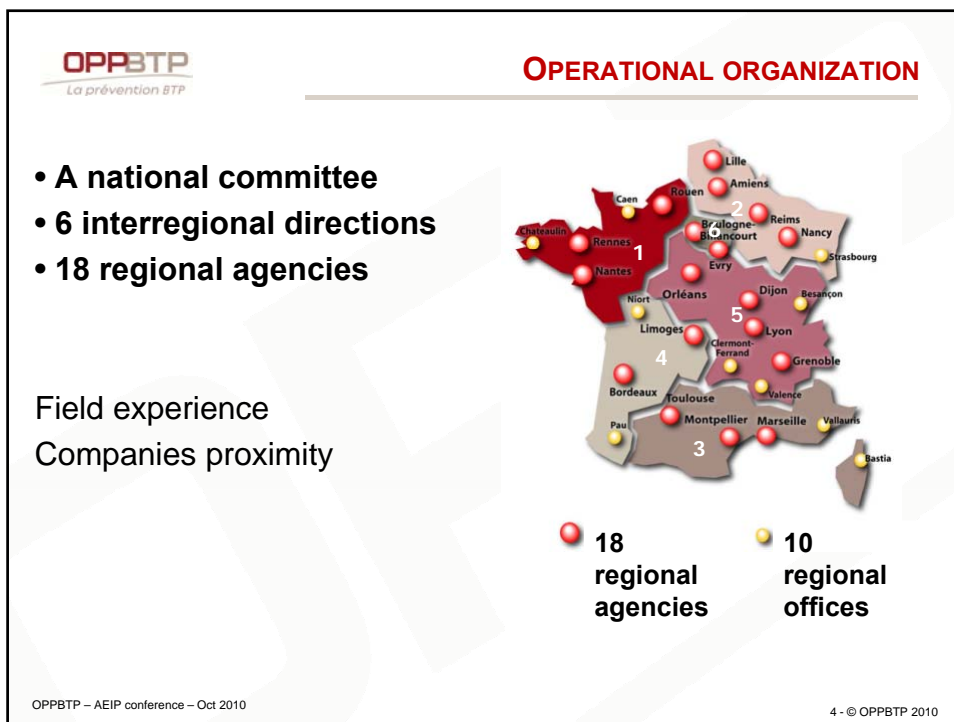

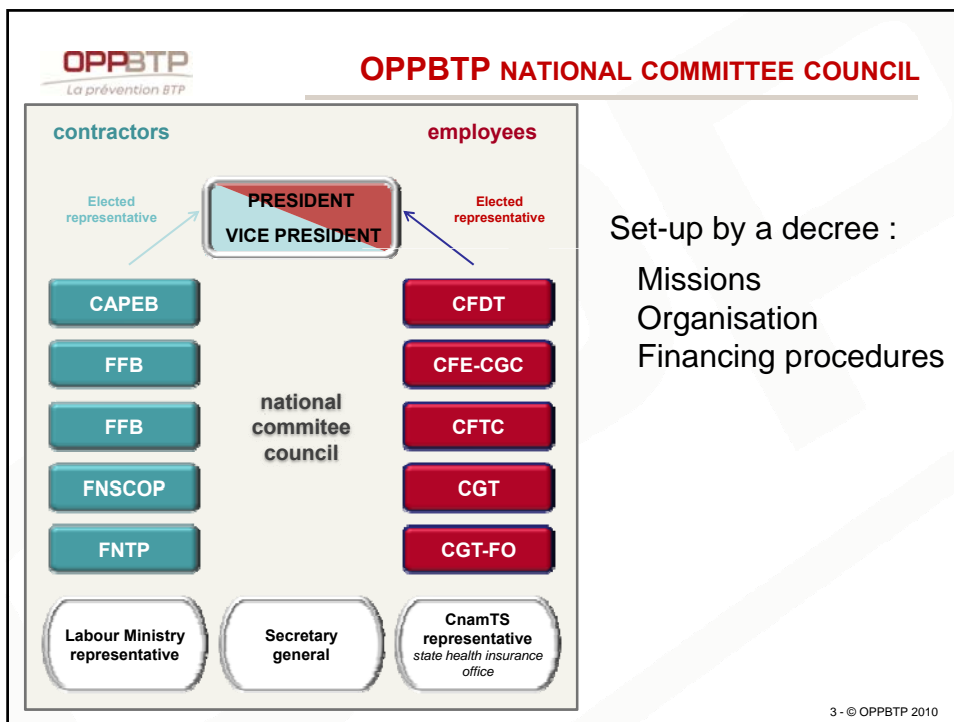

1985
Council
mission

1985 : No more control actions. Improve health, safety and working conditions.

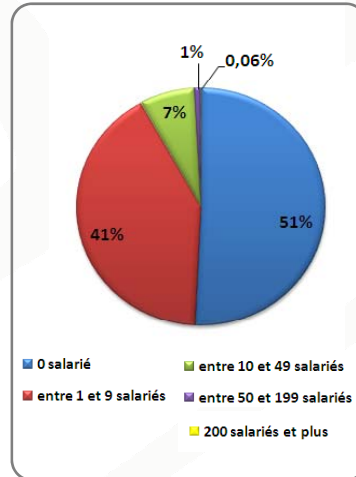

2007
European
widening

2007 : Mission extended to all actors of building industries and in an European dimension.

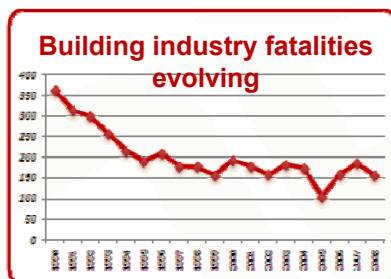

- 419,700 companies
- 1,585,000 employees = 8.8 % of the working population
- 97 % of the companies have less than 20 employees

During the last 20 years, the building industry actors joined forces to regularly decrease the number of occupational accidents.

However, in 2009, still :

**129,190 loss-time occupational accidents
and 155 fatalities**

Building industry sinistrality is higher than in other sectors

In 2009 :

27 % of the work fatalities in France

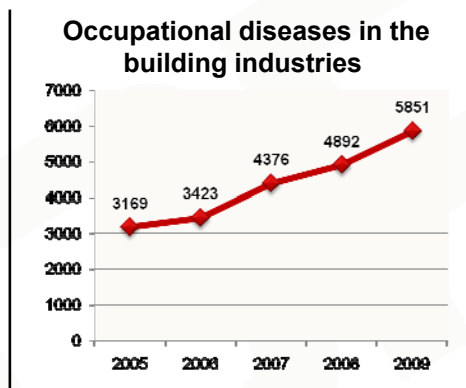

18 % of the loss-time occupational accidents

For 8,8% of the french employees

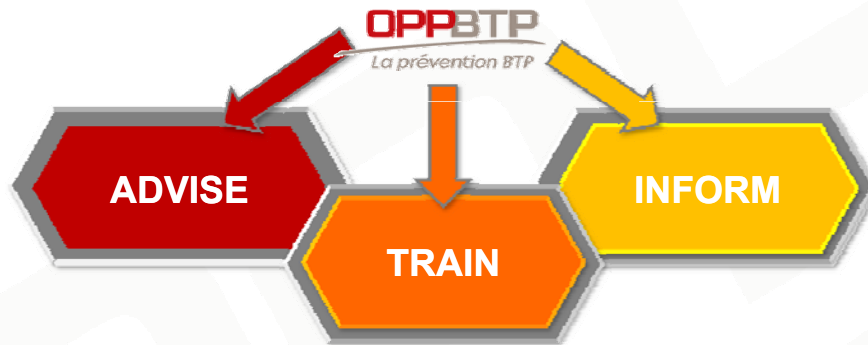

**one on 13 injured every 2 days
injury every 3 minutes**

- Large increase of the occupational diseases. It results from a better care and a better acknowledgement of the diseases especially repetitive strain injury (RSI).

RSI represent 85.2 % of the occupational diseases in 2009

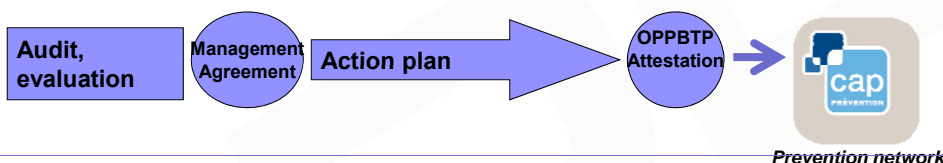

**to prevent risk
and improve health, safety and working conditions,
in building industry.**

- **Some conditions of success :**
 - Risk prevention must be part of company culture and supported by an adequate management system
 - Actions developed in a company must be shared by all workers from management to operatives

- **Some conditions of success :**
 - Risk prevention must be part of company culture and supported by an adequate management system
 - Actions developed in a company must be shared by all workers from management to operatives
- **The added-value of paritarism :**
 - Legitimacy, neutrality
 - Agreed-upon messages by all parties
 - A real equal dialogue must be established

- **Same approach in all companies,**

- **Specific tools and timing :**

PREVAL	< 20	ADAPTOMETIER
DÉMARCHE de PROGRÈS	20 – 50	ADAPTBTPT
DÉMARCHE d'ACCOMPAGNEMENT CHSCT	> 50
